

TO: All Members, University Curriculum Committee; Department Chairs
FROM: Mark Jackson, Chair, University Curriculum Committee
832-2650; jacksonmae@ccsu.edu
SUBJ: Primary Agenda for the 4th Round of Curriculum Meetings (revised 2/14)

The fourth round of meetings of the University Curriculum Committee for the academic year 2012-2013 will begin with the SEPS meeting 2/19/13 and will end with the Full curriculum meeting at 3:15 PM on 3/6/13 at 3:15 PM in Vance 105. The full schedule of meetings can be found by clicking on "[Committee Calendar](#)."

Electronic submissions may be viewed by clicking on their hyperlinks in the agenda. Keep in mind that the version of each proposal that appears below may reflect corrections to the electronic submissions. Representatives should make sure that the version of their proposals appearing below accurately represents what they propose.

If you have an item on the agenda, please make sure that someone with knowledge of the proposal attends all subcommittees to which the item is assigned (subcommittee assignments are in the rightmost column of the agenda). If an agenda item lacks a sponsor qualified to answer questions about the item, it will automatically be postponed to the next round of meetings in all subcommittees.

For committee members, please attend all subcommittees to which you are assigned (check membership by clicking on "[Subcommittee Assignments](#).")

REMINDERS:

- There is a new version of the shadow catalog. The link is here: <http://www.ccsu.edu/page.cfm?p=14778> .The password is newcat123
- If you are creating a new course, don't forget to check with Matthew Bielawa (bielawam@mail.ccsu.edu) for available course numbers.

AGENDA FOR SECOND ROUND OF CURRICULUM MEETINGS

A. Review minutes of previous meetings

B. Announcements

- I. Welcome new members from the new Department of Journalism!
 - a. Mary D'Ambrosio is the new representative on the Curriculum Committee. Tony Cannella will serve as alternate.
- II. Minor Changes from Engineering
 - a. (Note: this item is contingent on approval of item 7.1) The minor change is to adjust corresponding prerequisites in CE 397, CE 451, ME 367, ME 370, ETM 467, and ME 486
- III. Minor Changes in Earth Sciences
 - a. Replace the phrase "No credit given to **Earth Science majors** with credit for ____" with "No credit given to **students** with credit for ____" in the following courses
 - i. ESCI 121, "No credit given to students with credit for 131"
 - ii. ESCI 131, "No credit given to students with credit for 121"
 - iii. ESCI 125, "No credit given to students with credit for 135"
 - iv. ESCI 135, "No credit given to students with credit for 125"

C. Old Business:

Physical Education		
C1.1	Program Revision Major in Physical Education, B.S. Ed. No representative was present at the previous AS subcommittee Approved at SEPS	AS
C1.2	Course Addition PE 150 Fitness/Wellness for Educators	

	Waiting for SEPS deans signature	
Special Education		
C2.1	<p>Course Revision SPED 315 Introduction to Educating Learners with Exceptionalities</p> <p>Add d-designation for Foshay</p> <p>Approved at SEPS</p> <p>No sponsor present at GE subcommittee</p>	GE

D. New Business:

Biology		
1.1	<p>Course Revision Bio 230 Natural History 3</p> <p>BIO 121; or BIO 132 and 133; or BIO/BMS 111 and 113 Consideration of local wild species and their natural history traits, habitats, range, and evolutionary history. Two hours of lecture and one two-hour outdoor laboratory meeting per week. Fall. Study Area IV</p> <p><i>Change credits from 2 to 3 (add 2hr lab), revise description</i></p>	<p>AS</p> <p>GE</p>
1.2	<p>Course Revision BIO 425 Biology of Marine and Freshwater Algae 4</p> <p>BIO 200 and BIO 290, or permission of department chair. Ecology and classification of micro- and macroalgae from marine, estuarine, and freshwater environments. Laboratories and field trips include collection and identification of algae from Connecticut aquatic habitats. Three hours of lecture and one three-hour laboratory per week. Some Saturday field trips required.</p> <p><i>Change title and description</i></p>	<p>AS</p> <p>GR</p>

1.3	<p>Program Revision Major in Biology, B.S. (Non-Teaching)</p> <p>Changes required due to chemistry revisions, and other cleanup.</p> <p>For General Bio, E/B/E, and Environmental Science specialization. Correct title of 161/162 & 210/211. Delete 163/164 & 212/213. Add option of one of 200, 212, 260, 354. remove Bio 488 (course was deleted in 2010)</p> <p>In the environmental science specialization, add “(3-4 credits)” to “one of the following” in the physiology section</p> <p>For Environmental Science Specialization: Remove “and” between 412/413 and 449/450. Correct title of 161/162 & 210/211. Delete 163/164 & 212/213 & Chem 301. Add Chem 200 and 201. Add option of Chem 456 toxicology or 212/213.</p> <p>Specify that a minor is not required</p>	AS
1.4	<p>Program Revision Major in Biology, B.S. (Certifiable for teaching grades 7-12)</p> <p>Change titles of Chem 161/162 and 210/211.</p> <p>Remove Chem 250 (course deleted f12).</p> <p>Replace Chem 163/164 with Chem 200 or Chem 260. (note, we are not requiring a lab with this option)</p> <p>In the physiology elective section, change from “4 credits from the following” to “3-4 credits from the following” to allow students to take 412 and 449 in years that the optional lab is not available.</p> <p>Delete Bio 481 from list of physiology courses (this course was deleted in 2010)</p> <p>In Ecology/Evolution electives section, correct Bio 480 Animal Behavior from 3 credits to 4 credits</p>	AS SEPS
1.5	<p>Program Deletion Major in General Science with Specialization in Environmental Interpretation, BS</p>	AS

Chemistry		
2.1	Course Revision CHEM 456 Toxicology 3 <i>Change prereqs from chem 212 to chem 210</i>	AS GR
2.2	Program revision Minor in Chemistry (Non-Teaching) Change description to: 18 Credits in Chemistry, excluding CHEM 100	AS
Computer Electronics/Graphics Tech		
3.1	Course Revision GRT 242 Introduction to Graphic Design & Color 3 Revise course as follows: GRT 242 Digital Color Cross-Media Workflow Prereqs GRT 112 or 212 or permission of instructor. Introduction to the use of graphics elements and color. Topics include production design for brochures, packaging, and web; includes theory and practice of process color printing. Two hours lecture and two hours laboratory, course meets four hours per week. Fall	SET
3.2	Course Addition GRT 422 Print Distribution Management 3 Prereqs: GRT 362. Industry workflow systems and processes used to distribute and deliver the print and media related products. Logistical shipping methods, such as United States Postal Service (USPS), parcel delivery, shipping, warehousing and fulfillment operations in order to successfully deliver the products to end users. Two hour lecture and two hour laboratory, course meets four hours per week.	SET
3.3	Course Addition CET 439 Enterprise Messaging Systems 3 Prereqs: CET 339. Laboratory course emphasizing knowledge and skills related to enterprise-level messaging environment. Topics include concepts, guidelines, protocols, best practices, and considerations when implementing, managing, and optimizing the messaging server deployment. Two hour	SET

	lecture and two hour laboratory, course meets four hours per week.	
3.4	Program Addition <u>BS Digital Printing & Graphics Technology</u> Note: change title of GRT 242 to Digital Color Cross-Media Workflow	SET AS BUS
3.5	Program Addition <u>BS – NETWORKING & INFORMATION TECHNOLOGY</u>	SET AS BUS
Communication		
4.1	Course Addition <u>COMM 227 Introduction to Television Production</u> 3 Introduce students to the terminology and workings of visual communication and broadcasting. Become acquainted with the structures and organization of TV stations and production houses. Practice basic hands-on production and storytelling and work across different media platforms. Learn about new trends in social media, run a youtube site and contribute to blogs.	AS
4.2	Course Addition <u>COMM 327 TV Production</u> 3 Prereqs: COMM 227 (C- or higher). This course offers an introduction to field studio production. Foundations of television production (use of equipment, lighting, audio, scripting, new media, pre-production, production and post-production editing).	AS
4.3	Course Addition <u>COMM 228 Introduction to Digital Film Production</u> 3 This course introduces students to filmmaking processes, techniques and technologies as powerful and creative tools for communication. Image creation, audio acquisition and post-production practices, conceive and investigate ideas, engage in a creative/critical process and utilize new media technologies to construct simple messages. Hands-on workshops, viewing of films and creating media.	AS

4.4	Course Addition COMM 328 Digital Film Production 1 3 Prereqs: COMM 228 (C- or higher) Expands and explores the creation of ideas, characters and conflicts through the production process. Students advance their methods of visual coverage, engage in audio acquisition, while also testing and developing their ideas through the pre-production, production and post production process. This course is geared for those interested in documentary production, Independent filmmaking and/or commercial advertising.	AS
4.5	Course Addition COMM 487 TV Documentary 3 COMM 327 (C- or higher) Building upon a broad overview of the history of television documentary, both in the United States and overseas, the projects in the course are production centered: two mini documentaries will be produced by individuals in the class. Students are asked to also analyze chosen documentary examples to develop a deeper understanding of the subject matter.	AS
4.6	Course Addition COMM 488 Film Documentary 3 COMM 428 (C- or higher) Course is an advanced level production class in which students create an original, individually conceived documentary video. Project development, production, and editing techniques that are specific to documentary. Students learn advanced techniques of shooting and editing, audio and microphone techniques, field lighting, interviewing techniques, and documentary story structure. Students also learn how to develop voice and point-of-view as well as understand how to work within the various documentary genres.	AS
4.7	Course Deletion COMM 330 Digital Film and Television Production I 3	AS
4.8	Course Deletion COMM 480 Television Documentary Production 3	AS
4.9	Course Revision COMM 427 Digital Film and Television Production II Revise course to the following: COMM 427 Studio Production 3 Prereqs: COMM 327 (C- or higher) This studio-based course enhances production skills in both the field and studio. Emphasis on story conception,	AS

	development and scripting. Enhance skills in cinematography, directing, lighting design, non-linear editing and audio acquisition in such genres as news, graphics, animation and other aspects of live television.	
4.10	<p>Course Revision COMM 428 Digital Film and Television Production III</p> <p>Revise course to the following:</p> <p>Digital Film Production II 3</p> <p>Prereqs: COMM 328 (C- or higher). Advance and diversify storytelling techniques, filmmaking skills and methods of collaboration through field production and scripted recreation. Confronting and overcoming complicated issues and obstacles of live production, while also incorporating aspects of directed work, develops a filmmakers technical, aesthetic and critical abilities within both documentary and fictional filmmaking. Students cast, collaborate, explore, interview and direct truthful, thematically relevant and visually rich recreations. This work also includes aspects of sound design, style and ethical issues related to interpretation.</p>	AS
4.11	<p>Program Revision Major in Communication, B.A.</p> <p>Modify proposed description as follows (<i>in italics</i>):</p> <p>39 credits in the department and related courses, <i>including core requirements (12 credits), one track (9 or 12 credits), directed electives (18 or 15 credits).</i></p> <p>18 credits, of which at least 6 credits must be from a list of selected media production and performance courses.</p>	AS
Criminology and Criminal Justice		
5.1	<p>Course Addition CRM 407 Gangs in America 3</p> <p>Prereqs: CRM 322 (C- or better) The purpose of this course is to introduce the topic and study of gangs in the United States. The course will provide students with a historical perspective as well as identifying some of the challenges in defining and understanding gangs. The course will also examine theories on gang membership, types of gangs, as well as causes of gang formation. The latter part of the course will review research on law enforcement tactics, prevention programs,</p>	AS

	and intervention strategies for reducing gang activity.	
5.2	Program Revision Major in Criminology, B.A. Add CRM 435 Supervised Field Studies 3 Modify proposed description: 3 credits of a 200-level CRM elective; 9 credits of 300-level electives; <i>6 credits of 400-level CRM electives</i>	AS
English		
6.1	Course Addition ENG 330 Old English Language and Literature 3 Prereqs: ENG 298. In this course, students learn Old English in order to translate and discuss basic Old English texts.	AS
6.2	Course Revision ENG 332 Medieval English Literature 3 Revise course to: ENG 452 Medieval English Literature 3 Prereqs: ENG 398 Old English and Middle English literature, exclusive of Chaucer's Canterbury Tales, from the eighth through the 14th centuries. Most material read in translation. (GR)	AS GR
6.3	Course Revision ENG 450 Chaucer Revise to: ENG 331 Chaucer's Canterbury Tales 3 Prereqs: ENG 298. Chaucer's Canterbury Tales in Middle English <i>Note: Removing Graduate credit</i>	AS GR
Engineering		

7.0	Course Revision ET 251 Applied Mechanics I - Statics Change prereqs to ENGR 150 or ROBO 110; and PHYS 121 or PHYS 125; and MATH 136 may be taken concurrently) or MATH 152	SET
7.1	Course Revision ENGR 257 Mechanics of Materials 3 Revise to: ENGR 357 Mechanics of Materials 3 Prereqs: ENGR 251 (C- or higher) The analysis of simple and combined stress, torsion, flexure, and deflection of beams, continuous and restrained beams, combines axial and bending loads, and columns.	SET
7.2	Course Addition ENGR 392 Engineering Practicum (400 hours) 1 <i>NOTE: Change prereq to ENGR 357 contingent on approval of 7.1</i> Prereqs: ENGR 257 This course provides students the opportunity to apply engineering principles, theory, and problem solving procedures in industry to gain practical engineering experience. Irregular	SET
7.3	Course Addition ME 368 Machine Design II 3 Prereqs: ME 367 (C- or higher) and ENGR 252 (C- or higher) Analysis for the design of basic mechanical elements, and their role in the design of machines, design of fasteners and joints, welds, springs, bearings, gear, clutches, brakes and power transmissions. Fall	SET
7.4	Course Revision ME 367 Machine Design Revise to: ME 367 Machine Design I 3 Prereqs ENGR 257 (C- or higher) Analysis for the design of basic mechanical elements, and their role in the design of machines, theories of failure, fatigue design, design of rotating shafts, and analysis of variable loading. Spring	SET

7.5	Course Revision ME 403 Control of Dynamic Systems Revise to: ME 403 Control of Dynamic Systems 3 Prereqs: ME 352 (C- or higher) Topics include lumped physical system models; electrical, fluid, mechanical, and thermal system analysis; linear system transient, steady-state behavior; analysis and design of feedback control systems; transfer functions; block diagrams; proportional, rate, and integral controllers; and hardware and implementation. Two hours lecture and two hours laboratory, course meets four hours per week.	SET
7.6	Course Revision ME 459 Energy Conversion Systems Revise to: Change prereqs to ME 258 (C- or higher)	SET
7.7	Course Revision ME 483 Aerodynamics Revise to: change prereqs to MATH 222 and ME 480 (C- or higher)	SET
7.8	Course Revision ME 497 Senior Project I: Project Research Revise to: change prereqs to ME 367 (C- or higher)	SET
7.9	Program Revision Major in Mechanical Engineering, BS Revise to: Remove Chem 163/164 Add ME 368 Machine Design II Add Engr 392 Field Practicum	SET
GEOGRAPHY		
8.1	Course Revision GEOG 578 Internet GIS and Mapping	AS

	Revise to: GEOG 578 Advanced GIS and Mapping 3 Prereqs Planned program of study in MS or Permission of instructor. Advanced study of Principles and practices of GIS and Mapping. F(O)	GR
Gerontology		
9.1	Course Addition GERO 101 Introduction to Gerontology 3 Introduction to the interdisciplinary study of gerontology and the implications of aging in our society. Includes a review of social, psychological, economic, cultural, health, and policy issues. Discussion of normal vs. abnormal (disease-related) aspects of aging. Irregular. Study Area III	AS GE
9.2	Course Addition GERO 498 Special Topics in Gerontology 3 Prereqs: GERO 101 or permission of instructor. Analysis and evaluation of special topics in the field of gerontology. Topics announced each semester. May be repeated with different topics for a total of 6 credits. Irregular	AS
9.3	Program Revision Minor in Gerontology	AS
Manufacturing and Construction Management		
10.1	Course Deletion MFG 321 Computer-Aided Drafting	SET
	Course Deletion TM 359 Plant Layout	SET
10.2	Course Addition TM 120 Introduction to Technology Management 3 Current trends in technology management including innovation, technology systems, sustainable energy, materials, and historical perspectives. Fall	SET
10.3	Course Revision MFG 121 Technical Drafting & CAD 3	SET

	<p>Revise to:</p> <p>MM 121 Mechanical CAD 3</p> <p>Introduction to geometric construction, 3D modeling, orthographic projection, sectional and auxiliary views, dimensioning/tolerancing, and pictorials. Emphasis on the use of CAD for mechanical and manufacturing sectors. Two hours lecture and two hours laboratory per week.</p>	
10.4	<p>Course Revision MFG 216 Manufacturing Processes 3</p> <p>Revise to:</p> <p>MM 216</p> <p>Change prereqs to TM 120 or ENGR 150, or permission of instructor</p>	SET
10.5	<p>Course Revision MFG 226 Principles of Computer Numerical Control 3</p> <p>Revise to:</p> <p>MM 226 Principles of Computer Numerical Control (CNC)</p> <p>Change prereqs to MM 121 or ETM 260 or permission of instructor</p>	SET
10.6	<p>Course Revision MFG 236 Tool Design 3</p> <p>Revise to:</p> <p>MM 236</p> <p>Change prereqs to MM 121 or permission of instructor</p>	SET
10.7	<p>Course Revision EMEC 324 Fluid Power Systems</p> <p>Revise to:</p> <p>MM 324</p>	SET
10.8	<p>Course Revision MFG 366 Manufacturing Supply Chain Strategy</p> <p>Revise to:</p> <p>MM 366 Supply Chain and Purchasing Strategies</p>	SET

10.9	<p>Course Revision MFG 496 Lean Manufacturing</p> <p>Revise to:</p> <p>MM 390 Lean Operation Management</p> <p>Principles of lean manufacturing methodologies applied to operations management. Topics include 5S, production flow analysis, value stream mapping, pull systems, cellular manufacturing, waste elimination, visual factory, error proofing, quick changeover, change management.Spring</p>	SET
10.10	<p>Course Revision TM 190 Introduction to Quality Assurance</p> <p>Revise to:</p> <p>TM 190 Global Quality Management Systems 3</p> <p>Overview of the influence of the Japanese Lean Management system and the International Organization for Standardization (ISO) have had on contemporary quality management systems. Topics include Six Sigma, team building, change management, problem solving, and continuous improvement. Study Area III [I]</p>	SET GE
10.11	<p>Course Revision TM 362 Leadership Skills for Supervisors</p> <p>Revise to:</p> <p>TM 362 Leading Project Teams 3</p> <p>Applying leadership principles to contemporary work situations through creative class participation in industrial case studies. Techniques of leading project teams, including initiating, planning, scheduling and closing projects, motivation, delegation, discipline, teamwork, decision making, communications. Meets two hours lecture and two hours lab per week.</p>	SET
10.12	<p>Course Revision TM 310 Industrial Safety</p> <p>Revise to:</p> <p>TM 310 Environment, Health and Safety (EH&S) 3</p> <p>Overview of environment, health and safety issues including: improving employee health and safety, reducing hazards, hazardous waste and air emissions, and reducing the environmental impact of the production facility. Emphasis on sustainability, OSHA, EPA, and ISO 14000 standards and</p>	SET

	regulations.	
10.13	<p>Course Revision TM 456 HAZWHOPPER & Hazardous Material Management</p> <p>Revise to: TM 456 Hazardous Material Management 3</p> <p>Study of environmental regulations and their impact on industrial operations. Emphasis is on application of statutes, regulations and information sources concerning hazardous materials, waste handling and technical decisions pertinent to environmental and safety issues. Spring(O) (GR)</p>	SET GR
10.14	<p>Program Addition BS Manufacturing Management</p> <p>BS – Manufacturing Management (NEW) Major Requirements (45 credits) CET 113Intro to Info Processing TM 120 Intro to Technology Mgt TM 121 Mechanical CAD TM 190 Global Quality Mgmt Systems MM 216 Manufacturing Processes AC 210 Industrial Accounting MGT 295Fundamentals of Management MKT 295Fundamentals of Marketing TM 310 EH&S MM 360 Production Systems TM 362 Leading Project Teams MM 366 Supply Chain and Purchasing Strategies TM 401 Senior Seminar and Internship TM 464 Six Sigma Quality MM 390 Lean Operations Management</p> <p>Directed Electives (w/advisor) (12 credits) Electives (12 credits) MM 226 Principles of CNC MM 236 Tool Design MM 324 Fluid Power TM 480 Robotics or CM 335Construction Safety TM 411 Industrial Hygiene TM 414 Accident Investigation</p>	SET
