List of courses to be automatically deleted Every two years, the curriculum committee is required to review all courses that have not been offered during the previous four years. These courses are slated for <u>automatic deletion</u> from the catalog in May. If you want to retain any of these courses, the Department Chair or Curriculum Committee representative should contact me before April is over, and I will remove them from the deletion list. If you do not wish to retain any of these courses you could either do nothing, or you could explicitly instruct me to do so, and the course will be deleted from future catalogs.
