Students learn theoretical and critical approaches to media content, systems, and institutions that cultivate skills in critical thinking, analysis, and writing. The major also prepares students to create their own media content including films, documentaries, and multimedia products through traditional and emerging technologies. The curriculum encourages students to cultivate an appreciation for aesthetics and artistry in media production and content.</p> <p>CCSU also has a major in Journalism with emphases in print/online and broadcast journalism. The BA in Journalism program prepares students for entry into journalism and related fields where information-gathering, writing, editing, and awareness of public affairs are important. Students choose one of two tracks, print/online or broadcast journalism, but all students receive training in multimedia reporting. Additional information on the Journalism major can be found at http://www.ccsu.edu/page.cfm?p=14926</p> <p>B.A., MEDIA STUDIES CURRICULUM 38 credits total, with 15 credits in core courses, 12 additional credits within a specified emphasis area, and at least 11 other credits of directed electives.</p>

	<p>COMM 490 (Internship) COMM 496 (Field Studies in Comm)</p> <p>DIGITAL FILMMAKING & TELEVISION PRODUCTION This emphasis area focuses on independent film production and/or television production. Students enrolled in the film production sequence regularly conceive ideas, develop scripts and explore fictional /non-fictional characters through the production process. From originally scripted, short-filmmaking, to real-life film personal portraits, both graduates and current students of this program work in the entertainment industry, gain acceptance within film graduate programs, compete in festivals, produce media campaigns, commercials and most importantly, obtain the foundations to create compelling film-works for traditional and non-traditional distribution. Students enrolled in the television production sequence may get entry level positions in the areas of commercial television, cable, and video production houses. Television production is expanding rapidly as a professional field in Connecticut. You will also develop skills to work in the field of media production in public relations and organizational communication. After completing the four course series (COMM 227, 327, 427 and 487) you will be able to work in field as well as studio production in pre- and post-production, produce non-fiction projects and television-related content. Students should complete COMM 227 or COMM 228 prior to taking any of these additional courses COMM 327 (TV Production) COMM 328 (Digital Film Production I) COMM 329 (Screenwriting) COMM 345 (Writing for the Electronic Media) COMM 427 (Studio Production) COMM 428 (Digital Film Production II) COMM 487 (TV Documentary) COMM 488 (Film Documentary) COMM 490 (Internship) COMM 496 (Field Studies in Comm)</p> <p>DIRECTED ELECTIVES: Additional credits such that a student has at least 9 credits in 400-level classes and at least 20 credits in 300- and 400-level classes. 67	<p>Proposal on Catalog publication date</p> <p><i>* Note: this proposal will be discussed and voted on at the Full (executive) meeting of the curriculum committee on Dec 3. We have already discussed this idea in most subcommittee meetings over the previous couple of months, so additional discussion in subcommittee is optional, after all other curriculum proposals. Please continue discussing this with your departments in advance of the Dec 3 vote.</i></p> <p>Proposal: The University Catalog for each academic term shall be published no later than March 15 of the spring immediately preceding that academic term. The purpose is to ensure that the catalog accurately reflects curriculum changes that will take effect in the fall term during the time of spring advising and advance registration. The University Curriculum Committee shall institute whatever deadlines or procedures that are necessary in order to meet the March 15 publication deadline.</p> <p>Background: Advising for transfer students begins in early March, and it is very difficult to accurately advise when the new catalog is not published and curriculum changes may drastically change that student's academic plan. Continuing students and faculty advisors would also benefit from this proposal because they would know in advance of new opportunities they may they want to explore, and would also of possible course deletions or prerequisite changes that could potentially impede their progress.</p> <p>This will require a slight adjustment to the current curriculum schedule, as Curriculum Committee Bylaw 4.6 currently states that "Changes approved by the Curriculum Committee by its March meeting and by the Faculty Senate by its second meeting in March will normally appear in the next appropriate University Catalogue.", and this</p>	

	<p>was intended to have the new catalog published in June. To be approved in the March meeting, items need to be submitted by the first Friday of February so that they can hit the February run of subcommittee meetings. In order to have about a month to proof items going into the proposed March 15 catalog deadline, we would need to have these items approved by the faculty Senate and signed by the President no later than Feb 15, so we would have to move the curriculum deadline back to the previous cycle, which would be the submission deadline of the first Friday of November so that these items can be approved in the December Senate meeting (we don't currently have curriculum cycles in December and January since we are not on campus). This only reduces the amount of time we have to work on new proposals by one month, and I have worked out some ways they we could regain that month by revising some of our schedule.</p> <ol style="list-style-type: none"> 1. The members of the curriculum committee, like members of faculty senate, are supposed to be selected by departments in the spring for the following year. We need to work with the president's office to really push for department elections to be held early enough so that we can use the last meeting of the spring as or organizational meeting. Our bylaws already state that we should "organize itself in May", during which time we have always elected the chair, but organization could also extend to introducing new members and doing the new member orientation in May rather than waiting until the fall. That way we get people to go back to their departments in May and start the discussion of "what do we need to do in curriculum next year?" That is really a good time to do it, the perfect time to reflect on the previous year and make plans for the next. The deans and the chairs are working all summer, so we should really encourage maximum submissions during the summer months so that we can hit the ground running in September. The new submission system eliminates the running around for signatures, and the electronic review over the summer should be feasible 2. One of the big problems will be trying to get everything done in the November meetings for approval in December. That puts a lot of pressure on us in November to approve everything, and if anything needs to be postponed you will be out of luck. So I have been thinking of ways to try to add one last chance for items in January. <ol style="list-style-type: none"> a. Items for inclusion in the next catalog should ordinarily be submitted by the first Friday of November, and will be placed on the November agenda. Items approved by curriculum and by the faculty senate no later than December will ordinarily be listed in the next catalog. b. For any items that need to be postponed in November (they need more work, need review by additional departments, or we simply didn't have enough time), we will have a special January session of the curriculum committee. Since these items would have been submitted the previous November and already on a previous agenda, this would avoid the problem of having to get the agenda out 10 days in advance. Since this would only be for clearing those last items off the fall agenda, we would be able to get these approved in early February. Since this would only be

	<p>the items that were held over from the final fall meeting, we would be able to proof the already approved items for the new catalog and then still have a few weeks to proof these final items before going live.</p> <p>3. Emergency or Accreditation-related items could always be added after the March publication of the catalog with approval by the Vic-President for Academic Affairs, as they are now. We should explore the possibility of adding a note as to when modifications are made to the published catalog. In most cases of accreditation-required revisions, it is acceptable to have evidence of the revision through curriculum, but it is commonly understood that publication into the catalog often takes up to a year.</p>	
68	<p>Proposal for TAP Articulation with CCSE Gen Ed Program</p> <p>As the first of the TAP Pathways are being finalized, we are being asked to review and approve a standardized Articulation of the TAP Gen Ed with the CCSU Gen Ed program.</p> <p>The proposed articulation is here: TAP Gen Ed Articulation with CCSU Gen Ed</p> <p>You can review the details of the approved TAP Gen Ed program here : TAP Gen Ed</p> <p>Please pay particular attention to the two Section B courses. One of those courses can go into our Skill Area IV, but the other one requires some decision making on our part. The proposal recommends that the second Section B course be articulated as a Study Area III Behavioral Science course because that is one area of our Gen Ed that will not already have at least one course articulated, and students would still have to take one more Study Area III at CCSU</p>
