New Business

Item #6 from Consent agenda: Physics: Change prereqs on Physics 470 Quantum Mechanics. Concern that prerequisites are not clear. Motion to consider was passed. It was clarified that the desired requirements are as indicated: Optics or modern Physics or 2 forms of linear algebra. Approved

62 Mechanical Engineering: Course addition ME 340 Geometric Dimensioning & Tolerancing for Mechanical Design

Motion to separate course addition and International credit, which was a sticking point). Had been deferred to GENED concerning International designation. Gen. Ed. Deferred to this committee and new International studies (Advisory only, but they approved by 7:2)

New Course: Approved.

Int'l credit prompted discussion as to whether Int'l designation was appropriate, since main argument for international status was introduction of unit systems from other countries. Use of metric and customary units was proposed as basis for international credit. It was noted that “Customary” was identified as being customary only to US. PK stated that an International designation should involve substantive exposure to foreign culture. Motion to approve for International credit: Majority opposed.

63 Course revision: SPED 501 Education of the Exceptional Learner Removed field experience placement requirement. Added language “Elementary or Post Baccalaureate Students should take SPED 315 not SPED 501”. Motion to approve passed. Approved

64-66 Considered together. Changes in numbering of COMM courses and addition of language that ensures credit can't be taken twice. Approved

67 Change publication date of catalog to ensure new catalog is available prior to registration. PK raised concern that the change will result in crush of course changes at end of Fall semester. Motion approved with 1 opposed.

68 TAP articulation. After vigorous discussion which your humble servant was unable to transcribe sufficiently rapidly, motion to approve TAP transfer articulation as written passed by a vote of 9 in favor, 5 opposed.

Faithfully Submitted 2/04/15
