3.0 Agenda

A. List of Courses to be Deleted

The following courses have not been offered since Summer of 2017. It is reasonable to suggest that courses we do not offer should not be in the catalog. Every department with courses on this list should look at the courses and decide what they want to do. If you want a course removed from the list just simply email the curriculum chair, burkholder@ccsu.edu with the reasoning for keeping it and it will be removed from the list. The courses remaining on the list at the main meeting will be handled like a consent agenda, as a single item with the motion to delete. Items can be separated from the list for discussion. These changes will not take effect until the Fall **2022** catalog.

C. Require notification of UNIQUE Admissions Standards

If a new program or program revision requires **unique** admission requirements, those should be included in the description of the program at the time of submission. A check box will be added to the form to notify Academic Standards and/or Graduate Studies Policy Committee of these new admission requirements (or changes to existing admission requirements). The check box would alert the Chair of the Academic Standards and/or Graduate Studies Policy Committee of the proposal so they could reach out to the program faculty to ensure that procedure is properly followed.
