8) Biennial review of unused courses

We are required to review our catalog for courses that should no longer be included, as indicated that they have not been offered in at least four years. Courses are listed below for completeness. Any course can be kept in the catalog at the discretion of the department offering the course. To remove a course from this list, please open the spreadsheet here:

[Prevent course deletion](#)

And put your name in the “Do Not Delete” column. We will complete this process in Round 4, March 22, 2023, so you have plenty of time to discuss it with your department.

For reference, here is the list of courses that have not been offered in four years. Some courses have already been removed at the request of the department:
