

Goals and Objectives for Student Learning Outcomes for Academic Advising at Central Connecticut State University

Students will:

1. Describe and use campus services
 - 1.1. Describe how and where to seek information about academic and support services and use them when appropriate
 - 1.2. Use CentralPipeline as the primary means of communication with the university
 - 1.3. Access the university website to locate relevant information
 - 1.4. Locate financial aid and scholarship opportunities
2. Understand and complete degree requirements
 - 2.1. Identify all components of a degree program (general education, major, minor, program admission requirements, professional, electives, and special requirements)
 - 2.2. Explain how courses and other activities fit into a degree program (general education, major, minor, program admission requirements, professional, electives, and special requirements)
 - 2.3. Select courses and activities that meet all components of a degree program (general education, major, minor, program admission requirements, professional, electives, and special requirements)
 - 2.4. Use the degree evaluation system
3. Understand and follow university policies and procedures
 - 3.1. Explain and follow academic standards and regulations as listed in the undergraduate catalog
 - 3.2. Describe and follow course registration procedures within established timelines
 - 3.3. Apply for graduation within established timelines
4. Understand and apply strategies for academic success
 - 4.1. Evaluate academic and personal strengths and weaknesses
 - 4.2. Meet with an academic advisor
 - 4.3. Set academic goals and describes steps needed to achieve them
 - 4.4. Prepare a comprehensive individualized academic plan for graduation
 - 4.5. Develop connections with faculty to enhance the academic experience
5. Plan and integrate their academic program into their career goals
 - 5.1. Explore career goals
 - 5.2. Choose a major appropriate for the fulfillment of their goals
 - 5.3. Discuss career goals with an advisor and use other resources to search for and participate in related experiential activities
 - 5.4. Research and describe post-graduation educational opportunities
