

## Sabbatical Leave Committee

The sabbatical committee met during the month of December. We were informed by the provost that the university had funding for 23 sabbaticals. We received 36 proposals. After independently reviewing and rating each proposal and conducting individual interviews, the sabbatical committee recommended 23 proposals to the provost for approval. In addition, we were notified in January that CCSU was rewarded two additional sabbaticals. The next two highest ranking individuals on the alternative list were selected and sent to the provost.
