

Resolution

*All text in **Italic/Bold** is from Academic Standards*

Whereas, the CCSU School of Business currently requires these three admission and graduation requirements:

1. 2.5 Overall GPA for courses taken at CCSU
2. 2.5 GPA for pre-major required courses taken at CCSU and/or transferred in to CCSU
3. C- or better for all pre-major required courses taken at CCSU and transferred in to CCSU

Whereas, the CCSU School of Business desires to have comparable graduation standards as other business schools in our geographic area

Whereas, the CCSU School of Business desires to have the same graduation requirements for its students as for other students at CCSU (i.e. follow the university general standards as described in the current catalog).

Be It Therefore Resolved,

- The requirements for moving to major status will remain the same (1-3 above)
- Students in the School of Business will have the same *university graduation requirements as non-business majors*.
- There will no longer be any conditional admissions to major status
- Student will automatically be moved to major status after completion of all PMR Courses and meeting the other requirements (1-3) as specified above.
- ***This change will be effective immediately.***

Note new catalog copy attached. This will be referred to the academic standards committee for immediate consideration and implementation.

Passed the Business School Faculty Assembly March 29th, 2011

Passed Academic Standards April 26th, 2011 (with amendments indicated in this document).

New Catalog Copy to Implement Changes

Remove this language because we do not do conditional admits

Students who are enrolled in pre-major requirements courses and will complete the pre-major requirements by the close of the current semester will be granted "conditional" business major status, so that they can register for upper division business courses for the following semester provided, however, they currently meet the minimum grade and cumulative grade point average requirements in their completed coursework. If such students subsequently fail to successfully complete the pre-major requirements, their "conditional" business major status designation will be revoked, and they will be removed from upper division business courses and denied access to such courses until they successfully complete the pre-major requirements.

Remove this language since we move up automatically

Further information and applications for admission for both pre-major status and business major status may be obtained in the assistant dean's office in Robert C. Vance Academic Center, Room 216, along with names and locations of faculty advisors in the student's major. Students are encouraged to talk with faculty members in their major departments regarding course selection and career opportunities.

Remove this language from the catalog to effectuate the change in this motion (Per Academic Standards):

Students accepted into business major status must maintain a minimum 2.50 cumulative grade point average in business coursework and in the University grade point average. A student who has attained business major status in the School of Business and whose grade point average falls below the required minimum 2.50 cumulative grade point average will not be able to graduate and is subject to dismissal from the School.

Business Degree Graduation Requirements

Students must complete:

- ***Common business core (27 credits);***
- ***the common business core with a minimum cumulative grade point average of 2.50 in all coursework at CCSU (students must also receive a grade of C- or better in each of the common business core courses);***
- ***the business major requirements (30 credits) with a minimum cumulative grade point average of 2.50 in all coursework at CCSU (students must also receive a grade of C- or better in each business major course taken); and***
- ***the entire business degree program requirements (122 credits) with a minimum cumulative grade point average of 2.50 in all coursework at CCSU in order to graduate***
