

**MEMORANDUM**

To: Candace Barrington  
President, Faculty Senate

From: Jack Miller  
President

A handwritten signature in black ink, appearing to read "Jack Miller".

RE: Resolution FS 10.11.002R

Date: April 4, 2011

As you know, Senate Resolutions require no approval from me because they are statements of position, not Motions to be acted upon. Therefore, I take note to the above-mentioned resolution and responded with item 4. "Resolution Noted." I also have indicated under number 5. Other: "see attachment." Without going into all of the detail, since this is a resolution and not a motion, I will simply say that I have some substantive reservations about the implications of this resolution. I do not necessarily disagree with any of the statements in it, but rather, I am concerned with some of the conclusions that might be implicit. I would not want to set up false expectations by failing to note my concern.
