Subject: RE: Attached

Thank you for this valuable input. Indeed we are "all on the same page". Faculty input has already begun and I have yet to receive any recommendations from the university presidents. What we have are ideas which will eventually be framed into a plan. Hopefully the "ideas" will garner some resources which will assist us in fully receiving and recognizing input from all the stakeholders who hold our system to the highest standards. I trust we'll talk more in the very near future. gwg
