

Whereas the CSCU President does not act without the advice, consent, and support of the Board of Regents,

Whereas the Board of Regents does not base policy on sound academic and pedagogical principles,

Whereas the Board of Regents does not include faculty and staff of CSCU in meaningful discussions in the spirit of shared governance,

Whereas the Board of Regents has not provided adequate representation of CSCU students, faculty, and staff to elected officials and boards in the State of Connecticut, and

Whereas administrative and budgeting mismanagement by the Board of Regents has not afforded cost savings in administration and adequate increases in teaching faculty to accommodate CSCU students,

Be it resolved that the Faculty of Central Connecticut State University have **no confidence** in the leadership of the current Board of Regents.
