

Annual Report to the Faculty Senate

**Academic Assessment Committee  
Report on Activities AY 16-17**

The committee continues to work toward improving the assessment practices on campus as well as the committee's review of the assessment reports. The committee is continuing with the 5 year cycle plan for review. To that end, for the 2016-17 academic year, Marks the beginning of the next five year cycle. Report submission by departments was slower this year, resulting in fewer reports reviewed. This will most likely result in a higher workload for the committee in reviewing reports. Each assessment report was reviewed by the committee members and scored according to the rubric using Taskstream to record comments and scores of the committee. As always the committee reflects on our current practices and has discusses where improvement may be made.

Respectfully submitted,

James Mulrooney and Martha Kruey  
CO- Chairs, academic Assessment Committee
