

Whereas we value the health and safety of our students faculty staff, employees and the general public, the Faculty Advisory Committee (FAC) recommends the following supplementary measures to the existing reopening procedures

**(1) extending virus testing beyond residential students to all students, faculty and staff and establishing a consistent schedule of testing throughout the semester. (see Courant's July 30<sup>th</sup> article on testing plan at Yale and Wesleyan, and the Yale-Harvard study it cites for contrast)**

**(2) establishing point of entry monitoring at academic buildings for face masks (use and quality), temperature reading, and hand sanitizing; accommodations for those with conditions that exempt them from mask-wearing must not place others at risk.**

**(3) respecting faculty preferences for mode of course delivery and other duties, and staff preferences for telecommuting; Special consideration must be afforded to those over 65, given the specific nature of our college populations. Presence on campus should continue to be at faculty/staff discretion as conditions change throughout the semester.**

**(4) specific details about procedures for contact tracing, criteria for shutdown and move to remote learning, and conditions for reopening must be made clear. Method of communication about the details of any such shutdown or reopening must be clarified.**

**(5) Reports on the adequacy of ventilation systems must be provided for each building that will be used on each campus and deficiencies addressed to ensure equal access to a safe working environment for students, as well as for faculty and staff.**
