

The Faculty Senate has been asked to add one additional member to the Information Technology Committee for the one academic year 2021-22: Kimberly Meyer, of the Criminology and Criminal Justice department. She was left off the ballot due to a technological error. She wishes to serve as a committee officer for this year. The Chair of the committee strongly supports this proposal.

This is allowed under Article 2.14 of the Bylaws of the Faculty Senate.

The Faculty Senate also requests that, in the future, in order to prevent technological errors like this, a confirmation e-mail should be sent to all nominees for Standing Committees of the Faculty and other committees and positions elected as part of the biannual Call for Nominations, and charges the Elections Committee with the implementation of this request.
