

New College Task Force
(College of Health & Rehabilitation Sciences)
Update, May 2, 2022

The Task Force for the new College has met twice since the Faculty Senate update on February 28, 2022. The focus of these two meetings was on the new programs (DPT, MSW, Rehabilitation Engineering), their development, and progress. A subcommittee of the Task Force met with faculty from Engineering for initial discussions regarding a graduate certificate program. Further discussions will take place as the program develops. The Task Force has its next meeting on May 13th. Please feel free to email questions/comments to Kathy Bantley at Bantleyk@ccsu.edu.
