

James Austin	English (CLASS)	As a writing professor, I deal with complex issues of academic integrity on a regular basis. I can bring this experience to the committee.
Candace Barriteau Phaire	Literacy, Elementary, & Early Childhood Education (SEPS)	As I continue to develop and enhance our Early Childhood program at CCSU, I've had the opportunity to learn more about academic integrity policies at CCSU and at different institutions to support our students consistently. I have worked on various methods for communicating policies to students successfully and I'd like the opportunity to serve as a representative on this committee to continue this work across our university community.
